

***Please join us for Project Updates on the
LA World Airports ConRAC effort.***

**Tue, June 19, 2018
10:30 AM – 1:00 PM PDT**

Hawthorne Community Center, 3901 W. El Segundo Blvd.

As the deadline for our technical information submission approaches, this event will be our last major outreach event before that July deadline.

We'll have more detailed information for you on the Design, Construction, and Operations & Maintenance phases of the Project, so that you have up to the minute developments on progress.

As we begin to select subcontractors for the Project, this is a chance for you to ask questions, meet with our team, and submit any additional information about your company that you'd like us to have.

Parking is available onsite, and we will be serving lunch.

***We look forward to seeing you soon,
and ultimately, to working with you on the Project!***
